PROVIDING FLEXIBLE PACKAGING SOLUTIONS

ABOUT US:

N.B Polyfilms is a premier Flexible Packaging converter, based in Hyderabad. Founded in 2003 by a team of top-notch professionals with sound expertise in flexible, printed and laminated products like single and multiple layer films, pouches, rolls, etc, N.B Polyfilms caters to a wide spectrum of industries, i.e., Tea, Snacks, Spices, Pesticides, Health and Body Care Detergents, Biscuits, Confectionary and vegetables oil films etc.

N.B Polyfilms specializes in a host of packaging and laminate products like Printed Packaging, Food Packaging, Pharma Packaging, Sea Food Packaging, Retort Packaging, Vacuum Packaging, Aluminium Foil Laminates, Flexible Laminates and Barrier Laminates.

At N.B Polyfilms, we are focused on building a world class company with facilities encompassing various materials, technologies, products and a dynamic team of people who can articulate the technologies, to provide packaging products of next generation. Our commitment to maintaining product quality of the highest standards, cost-effective packaging solutions, timely delivery schedules, customer focused after-sales service and complete customer satisfaction, has enabled us to build an extensive customer base in a shorter span of time.

VISION & MISSION:

Vision

To become a market leader in flexible packaging solutions, provide impetus to packaging development through suitable packaging solutions and produce zero defect goods through stringent quality standards.

Mission

To obtain maximum customer satisfaction, by providing technically suitable products at the most competitive prices with committed schedules.
